

ASSIGNMENT

1. A) Open Jupyter and create a simple jupyter notebook with following code:

```
print("Hello. This is my first jupyter notebook assignment")
```

```
print("I am looking forward to learning python")
```

- B) Rename the jupyter notebook to **L01_hello.ipynb** and save it.
 - C) Run the code

2. A) Open VSCode and create a python file **L01_hi.py** with following code:

```
print("Hi. This is my first python file")
```

```
print("Python is easy to learn")
```

- B) Run the code
